Requesting Him to Order an Elec tion in Berkeley County for An nexation to Orangeburg.

A petition has been presented to Gov. Ansel by the people who live in that part of Berkeley county that wish to annex themselves to Orange- future sales we believe cotton would burg county, requesting him to order an election to determine the matter. The petition was presented to the Governor on Tuesday by a delegation of citizens from Berkeley county, who were accompanied by Major W. L. Glaze, of the Orangeburg Bar, who drew the petition, Receipts this day 55,544 and who is acting in a legal way for Same day last week 51,346 the petitioners.

The territory embraced in the petition extends from Four Holes swamp on the west to Vances on the east, and from the Orangeburg line swamp several miles below that thriving little town. It embraces about one hundred square miles and has about one million dollars worth of taxable property. It will take in the towns of Holly Hill, Eutawville, Ferguson and one or two smaller hamlets. It takes in a big lumber mill, considerable railway mileage and one or two banks, to say nothing of many smaller enterprises.

This section is really the richest part of Berkeley county and will be missed by the old county when it votes itself to Orangeburg county, which seems to be an assured, fact just as soon as the people living in it get a chance to express themselves at the ballot box. In addition to the fine lands and wealth of the territory embraced in the petition, it has splendid citizenship, numbering several hundred of the very best people of Berkeley county or the State. It is said that they are almost a unite for annexation. The Berkeley people living with-

in the territory that wish to join Orangeburg are the only ones that will be allowed to vote on the question of annexation. They must decide the matter for themselves. While they will benefit us by coming with us, we will also benefit them. Orangeburg is a rich county, and our taxes should be kept low We have no debt, and is not likely to have one, as we are a plain people, and do not believe in pomp and show. Our present public buildings will do us until we can build better ones without going into debt.

The people of Orangeburg county are pleased to know that our Mar neighbors are willing to join us, and they will be given a hearty welcome as well as a fair, square deal. If we mistake not, the territory now wishing to join us was a part of Orangeburg county in the long ago. The matter of the election was referred by the Governor to the Attorney-General, who will pass on it and order the election held. Sevefal weeks notice have to be given in the Berkeley county paper before the election. After that is held, should it be favorable for annexation, the transfer will be arranged.

COTTON ADVANCES IN PRICE.

Touches the Thirteen Cents Mark on Last Tuesday.

Cotton has been going up for the last few days, and we expect to see it touch the fifteen cent mark in the next few weeks if the cotton sold for future delivery by the farmers does not cause the buyers to hold off until the mills use up what they bought from the farmers in the summer at a price much below the present prices. If it was not for these go to fifteen cents by the end of October. But the future sales are an unknown quantity and may cause the market to break when that cotton goes on the market. Receipts
